

# MODULAR STACKING DRAWER UNIT

## STORAGE SYSTEM

### BENCHTOP CASSETTE STORAGE

---

With 8 Litre volume, these plastic drawer units are available singly to provide a flexible and unique modular stacking storage system. The system is very versatile in that each unit can be clipped together vertically and also horizontally.

These drawer units are ideal for organising working areas and offices. They are particularly useful for creating organised and accessible storage of embedding cassettes and other products in pathology laboratories. The drawers are clear so that the contents can be identified easily, but the outer frame is a sturdy plastic shell, which is available in a choice of 5 colours.
