Please see reverse for further details.

PRODUCT SPECIFICATION

General

The 3M-3720 Formaldehyde Passive Monitoring Badge monitors personnel or work areas in health care, laboratories, and in the chemical, pulp/paper, foundry and textile industries (not acceptable for STEL monitoring).

All 3M™ Air Monitors are simple and effective devices that collect contaminants through the scientific principle of diffusion. They meet or exceed OSHA accuracy requirements of $\pm 25\%$ at 95% confidence level for many work contaminants.

Features:

- No batteries, hoses, pumps or equipment to calibrate.
- Easy to use Can also be used for area monitoring if sufficient air flow exists.
- Product support and instructions
- Provided with reference information needed to use the monitors.
- ISO 9002 certified
- Small and lightweight and will not interfere with user's activities.
