# Product Specification

## Sizes:

### GJ1105

Height: 202mm (including neck)  
165mm (not including neck)

Width: 163mm (base)  
123mm (neck)

Opening: 110mm

### GJ1800

No data available

Note: Some measurements may vary between batches

## Material

Clear white flint glass

## Manufacturing process

Semi-automatically blown

## Closures

3500ml: 125mm black bakelite screw cap with card ring liner  
1250ml: 100mm black polypropylene cap with EPE liner

## Suitability

Used for visual checks and sampling of petroleum fuel, oil and biological specimens. The wide mouth nature of these jars makes samples accessible to reach and are easy to clean.
