

# MATERIAL SAFETY DATA SHEET

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

# **1.1 Product identifiers**

| Product name: | Nitric Acid 15% solution |
|---------------|--------------------------|
| Product Code: | REA209                   |
| Brand:        | Solmedia Ltd             |

#### **1.2** Relevant identified uses of the substance or mixture and uses advised against

Identified uses: PC21 Laboratory chemicals

#### **1.3 Details of the supplier of the safety data sheet**

| Name of Supplier:<br>Address of Supplier: | Solmedia Ltd.<br>Unit 2, Vernon Drive<br>Battlefield Enterprise Park<br>Shrewsbury<br>SY1 3TF |
|---|---|
| Telephone:                                | UK<br>0844 80 80 900  |
| Email:                                    | labsupplies@solmedialtd.com   |

#### **1.4 Emergency telephone number**

**Emergency Phone:** +44 (0)844 80 80 900

# SECTION 2: Hazard's identification

# 2.1 Classification of the substance or mixture

| Skin corrosion     | Category 1A |
|--------------------|-------------|
| Serious eye damage | Category 1  |

#### Most important adverse effects:

Causes severe skin burns and eye damage.

# 2.2 Label elements

| Hazard statements: | H314: Causes severe skin burns and eye damage. |  |
|--------------------|--|--|
|                    | H318: Causes serious eye damage.               |  |
| Signal words:      | Danger   |  |
| Hazard pictograms: | GHS05: Corrosion                               |  |

# Precautionary Statement(s):

|                   | P260: Do not breathe dust or mists.  |  |
|-------------------|--|--|
|                   | P264: Wash hands thoroughly after handling.  |  |
|                   | P280: Wear protective gloves/protective clothing/eye protection/face protection.   |  |
|                   | P301 +P330 +P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.   |  |
|                   | P303 +P361 +P353: IF ON SKIN (or hair): Remove/Take off<br>immediately all contaminated clothing. Rinse skin with<br>water/shower.               |  |
|                   | P304 +P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.                                      |  |
|                   | P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |  |
|                   | P310: Immediately call a POISON CENTRE or doctor/physician.  |  |
|                   | P363: Wash contaminated clothing before reuse.   |  |
|                   | P405: Store locked up.   |  |
|                   | P501: Dispose of contents/container in accordance with local requirements.   |  |
| 2.3 Other hazards |  |  |

**PBT:** This product is not identified as a PBT/vPvB substance.

# **SECTION 3: Composition/information on ingredients**

# 3.2 Mixtures

| Component   | CAS No:   | EC No./REACH<br>Registration<br>No. | Formula | Molecular<br>Weight | Percent |
|-------------|-----------|-------------------------------------|---------|---------------------|---------|
| Nitric Acid | 7697-37-2 | 231-714-2                           | HNO₃    | 63.01 g/mol         | 15%     |
| Water       | 7732-18-5 | 213-791-2                           | H₂0     | 18.00 g/mol         | Balance |

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

| Skin Contact: | Immediately flush with plenty of water for at least 15 minutes while<br>removing all contaminated clothes and footwear, wash using soap.<br>Get medical attention immediately. Transfer to hospital if there are<br>burns or symptoms of poisoning. |
|---------------|---|
| Eye Contact:  | Bathe the eye with running water for 15 minutes. Transfer to hospital for specialist examination.   |
| Ingestion:    | <b>Do not induce vomiting.</b> Never give anything by mouth to an unconscious person. If conscious, wash out mouth with water. Get medical attention immediately. Transfer to hospital as soon as possible.   |
| Inhalation:   | Move casualty to fresh air and keep at rest. If breathing is difficult or<br>becomes bubbly, give oxygen. If not breathing, give artificial<br>respiration. Get medical attention immediately, Transfer to hospital<br>as soon as possible.         |

#### 4.2 Most important symptoms and effects, both acute and delayed

| Skin contact:                | May be harmful if absorbed through the skin. Causes skin irritation. |
|------------------------------|--|
| Eye contact:                 | Causes serious eye irritation and damage.                            |
| Ingestion:                   | May be harmful if swallowed.   |
| Inhalation:                  | May be harmful if inhaled. Causes respiratory tract irritation.      |
| Delayed / immediate effects: |  |

Immediate effects can be expected after short-term exposure.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Eye bathing equipment should be available on the premises.

#### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

Suitable extinguishing media for the surrounding fire should be used. Use water spray to cool containers.

#### 5.2 Special hazards arising from the substance or mixture

Corrosive. In combustion emits toxic fumes (Nitrogen Oxides).

### **5.3 Advice for firefighters**

Wear self-contained breathing apparatus. Wear protective clothing including eye protection and boots.

#### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Notify the police and fire brigade immediately. If outside keep bystanders upwind and away from danger point. Mark out the contaminated area with signs and prevent access to unauthorised personnel. Do not attempt to take action without suitable protective clothing - see section 8 of SDS. Turn leaking containers leak-side up to prevent the escape of liquid.

#### **6.2 Environmental precautions**

Prevent spillage from entering drains. Any release to the environment may be subject to federal/national or local reporting requirements.

### 6.3 Methods and materials for containment and cleaning up

Neutralize spill with sodium bicarbonate or lime. Absorb spill with non-combustible absorbent material, then place in a suitable container for disposal. Clean surfaces thoroughly with water to remove residual contamination. Dispose of all waste and clean up materials in accordance with local regulations.

#### 6.4 Reference to other sections

See also Section 8.

### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

Ensure there is sufficient ventilation of the area. Wash thoroughly after using. Keep container closed when not in use.

Do not handle in a confined space. Avoid the formation or spread of mists in the air.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in cool, dry, well ventilated area. Keep container tightly closed. Keep away from incompatible materials.

#### 7.3 Specific end use(s)

No data available.

#### **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

REA209 v 21.04 April 2021

### **Hazardous Ingredients**

#### **Nitric Acid**

| Exposure Limits       | Basis | Entity |  |
|-----------------------|-------|--------|--|
| 2 ppm                 | TLV   | ACGIH  |  |
| 5.2 mg/m <sup>3</sup> |       |        |  |
| 4 ppm                 | STEL  | ACGIH  |  |
| 10 mg/m <sup>3</sup>  |       |        |  |
| 2 ppm                 | PEL   | OSHA   |  |
| 5 mg/m <sup>3</sup>   |       |        |  |
| 2 ppm                 | REL   | NIOSH  |  |
| 5 mg/m <sup>3</sup>   |       |        |  |
| 4 ppm                 | STEL  | NIOSH  |  |
| 10 mg/m <sup>3</sup>  |       |        |  |
| 25 ppm                | IDLH  | OSHA   |  |

TWA: Time Weighted Average over 8 hours of work

TLV: Threshold Limit Value over 8 hours of work.

REL: Recommended Exposure Limit

PEL: Permissible Exposure Limit

STEL: Short Term Exposure Limit during x minutes.

IDLH: Immediately Dangerous to Life or Health

WEEL: Workplace Environmental Exposure Levels

CEIL. Ceiling

#### 8.2 Exposure controls

**Engineering measures:** Ensure adequate ventilation. Provide eyewash stations, quick-drench showers and washing facilities accessible to areas of use and handling.

| Respiratory Protection | n: Provide local exhaust, preferably mechanical. If exposure levels are<br>excessive, use an approved respirator.   |
|------------------------|---|
| Hand Protection:       | Wear nitrile or rubber gloves. The type of protective equipment<br>must be selected according to the concentration and amount of the<br>dangerous substance at the specific workplace.  |
| Eye Protection:        | Wear chemical safety glasses or goggles, and face shield.   |
| Skin Protection:       | Impermeable full protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. |
| Environmental:         | Do not let product enter drains. Prevent from entering in public sewers or the immediate environment.   |

# **SECTION 9: Physical and chemical properties**

### 9.1 Information on basic physical and chemical properties

| Appearance: | Liquid.       |
|-------------|---------------|
| Colour:     | Colourless    |
| Odour:      | Not available |
| pH:         | Not available |

Melting/freezing point: Not available Initial boiling point and boiling range: 100°C (212°F) Flash point: Not flammable Not available **Evaporation rate:** Flammability (solid, gas): Not flammable Upper/lower flammability or exposure limit: Not explosive Vapour pressure: 123 hPa (17 mmHg) at 20°C (68°F) Vapour density: Not available 1.15g/cm<sup>3</sup> at 20°C (68°F) Density: Solubility (ies): Soluble in water. Partition coefficient: n-octanol/water: Not available Auto-ignition temperature: Not available **Decomposition temperature:** Not available

#### 9.2 Other safety information

No data available.

| SECTION 10: Stability and reactivity |  |  |
|--------------------------------------|--|--|
| 10.1 Reactivity                      |  |  |
|                                      | Stable under recommended transport or storage conditions.                                  |  |
| 10.2 Chemical stability              |  |  |
|                                      | Stable under normal conditions.  |  |
| 10.3 Possibility of hazardous re     | eactions   |  |
|                                      | Hazardous reactions will not occur under normal transport or storage conditions.           |  |
|                                      | Decomposition may occur on exposure to conditions or materials listed below.               |  |
| 10.4 Conditions to avoid             |  |  |
|                                      | May discolour on exposure to air and light.  |  |
| 10.5 Incompatible materials          |  |  |
|                                      | Alkali metals, organic materials, acetic anhydride, acetonitrile, alcohols, acrylonitrile. |  |

# **10.6 Hazardous decomposition products**

Nitrogen oxides.

# SECTION 11: Toxicological information

# **11.1 Information on toxicological effects**

| Acute Toxicity                |  |  |  |
|-------------------------------|--|--|--|
| Nitric Acid                   |  |  |  |
| Skin contact:                 | Not available  |  |  |
| Eye contact:                  | Not available  |  |  |
| Inhalation:                   | Not available  |  |  |
| Ingestion:                    | LDLO Oral – Human – 430 mg/kg  |  |  |
| Carcinogenicity               |  |  |  |
| IARC:                         | No components of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. |  |  |
| ACGIH:                        | No components of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.            |  |  |
| NTP:                          | No components of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.                 |  |  |
| OSHA:                         | No components of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.             |  |  |
| Symptoms / routes of exposure |  |  |  |

| Skin contact: | Itching, swelling, redness, burning.                                  |
|---------------|---|
| Eye contact:  | Itching, redness, burning, watering eyes.                             |
| Ingestion:    | Burning, choking, nausea, vomiting, pain.                             |
| Inhalation:   | Burning, choking, shortness of breath, coughing, wheezing, dizziness. |

Chronic Toxicity:Not available.Teratogenicity:Tetotoxicity (except death)Mutagenicity:Not available.Embryotoxicity:Tetotoxicity (except death)Specific Target Organ Toxicity:<br/>Not available.Not available.Reproductive Toxicity:Not available.Respiratory/Skin Sensitization:<br/>Not available.Not available.

### **SECTION 12: Ecological information**

# 12.1 Toxicity **Nitric Acid** Aquatic Vertebrate: LC50 – Gambusia affinis – 72 mg/L – 96h Aquatic Invertebrate: Not available **Terrestrial:** Not available 12.2 Persistence and degradability Not available. 12.3 Bioaccumulative potential Not available. 12.4 Mobility in soil Not available. 12.5 Results of PBT and vPvB assessment Not available. 12.6 Other adverse effects

Not available.

#### **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

| Disposal operations:   | Transfer to a suitable container and arrange for collection by specialised disposal company.                    |
|------------------------|---|
| Recovery operations:   | Not applicable.   |
| Disposal of packaging: | Dispose of as unused product.   |
| NB:                    | The user's attention is drawn to the possible existence of regional or national regulations regarding disposal. |

Nitric Acid 15% solution

| SECTION 14: Transport information |                         |  |
|-----------------------------------|-------------------------|--|
| 14.1 UN number                    |                         |  |
|                                   | 2031                    |  |
| 14.2 UN proper shipping name      |                         |  |
|                                   | ADR/RID: NITRIC ACID    |  |
|                                   | IMDG: NITRIC ACID       |  |
|                                   | IATA: Nitric acid       |  |
| 14.3 Transport hazard class(es)   |                         |  |
|                                   | 8                       |  |
| 14.4 Packaging group              |                         |  |
|                                   | II                      |  |
| 14.5 Environmental hazards        |                         |  |
|                                   | No                      |  |
| Marine pollutant:                 | No                      |  |
| 14.6 Special precautions for user |                         |  |
|                                   | No special precautions. |  |
|                                   |                         |  |

#### **SECTION 15: Regulatory information**

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/.

### 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

### **SECTION 16: Other information**

This safety data sheet is prepared in accordance with Commission Regulation (EU) No 453/2010.

#### Phrases used in s.2 and 3:

H314: Causes severe skin burns and eye damage.

H318: Causes serious eye damage.

# **Further information**

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product. Solmedia Ltd shall not be held liable for any damage resulting from handling or from contact with the above product.
